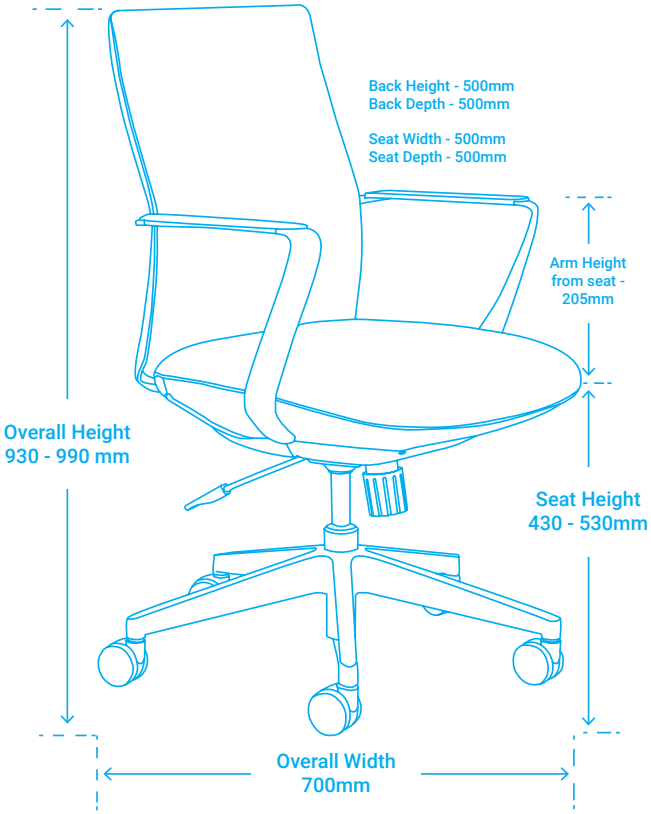
Executive Mid Back Leather Chair



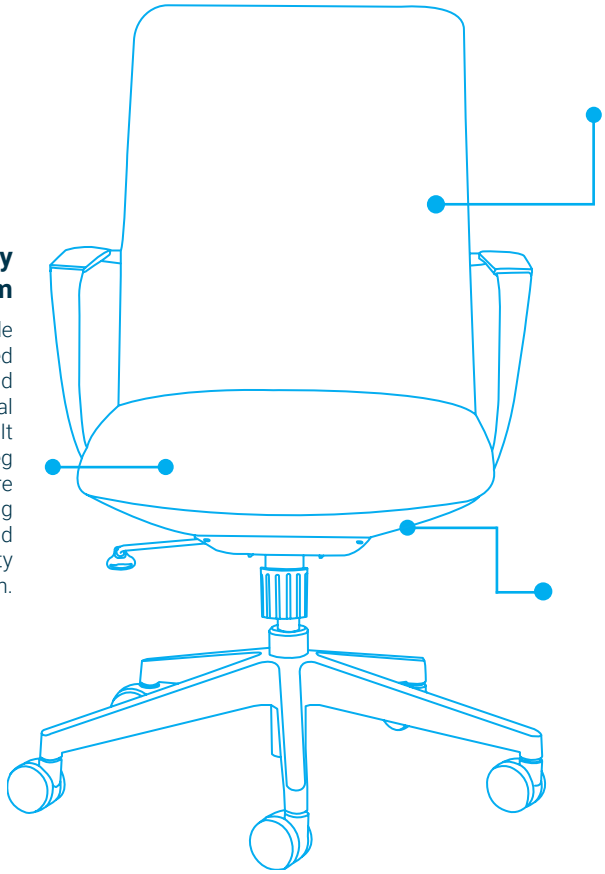
Dimensions (mm)

Overall Height	Seat Height	Overall Width
930 to 990mm	430 to 530mm	700

Back Height	Back Depth	Seat Width	Seat Depth
500	500	500	500

Boxed Dimensions (mm)

Box	Weight
770 x 350 x 650 mm	16kg



Steel Back Frame Light & Thin Support

The backrest features a steel frame structure with internal elastic support, moving away from traditional wooden board designs for a lighter and thinner profile.

Soft High Density Molded Foam

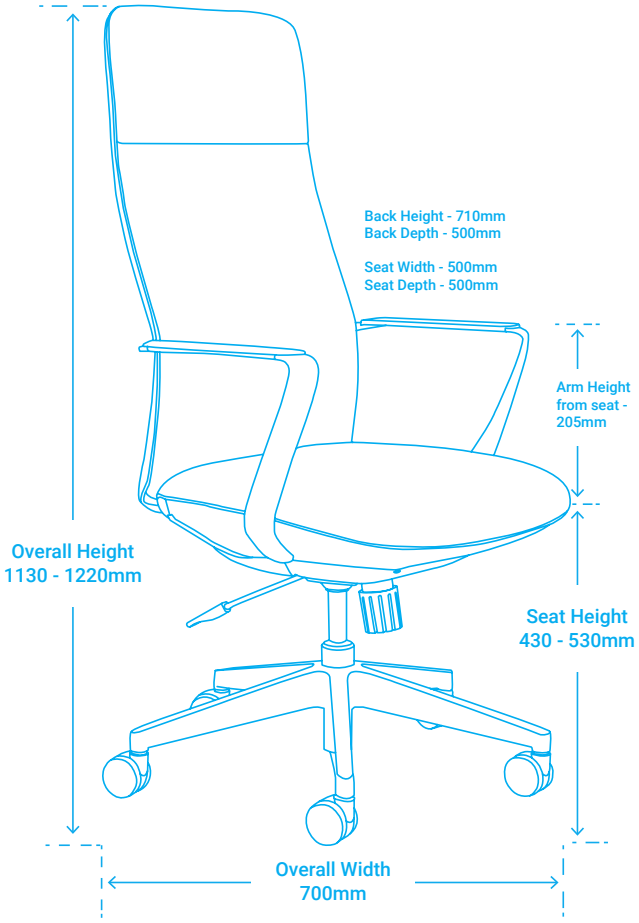
The seat cushion is made from high-density moulded foam, featuring a streamlined arc design for optimal elasticity and support. It conforms to the hip and leg curves, dispersing pressure to prevent fatigue, offering excellent resilience and strong load-bearing capacity without deformation.

Single Lock Mechanism, synchronous tilt real-time support

Equipped with a foldable large-handle butterfly chassis, the chair conforms to the human back curve. It synchronously tilts with body movements, providing real-time lower back support, relieving fatigue from prolonged sitting, and restoring energy for better work performance.

Director

Executive High Back Leather Chair



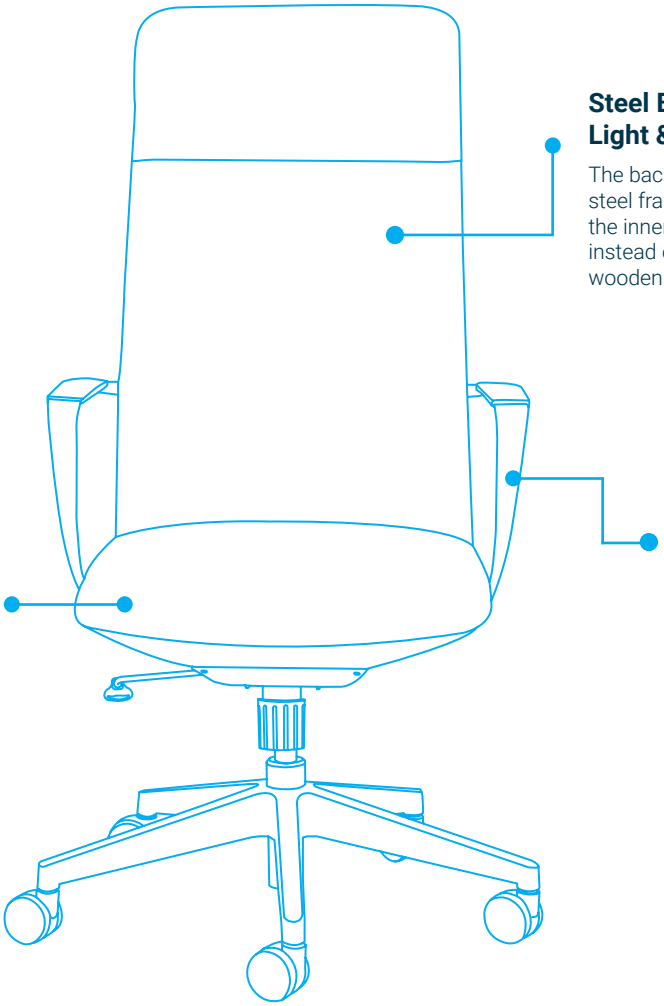
Dimensions (mm)

Overall Height	Seat Height	Overall Width
1130 to 1220mm	430 to 530mm	700

Back Height	Back Depth	Seat Width	Seat Depth
710	500	500	500

Boxed Dimensions (mm)

Box	Weight
860 x 350 x 640 mm	17kg



Steel Back Frame Light & Thin Support

The backrest adopts the steel frame structure and the inner elastic support, instead of the traditional wooden board process.

Soft High Density Molded Foam

The seat cushion is made from high-density moulded foam, featuring a streamlined arc design for optimal elasticity and support. It conforms to the hip and leg curves, dispersing pressure to prevent fatigue, offering excellent resilience and strong load-bearing capacity without deformation.

Fish-like Armrest with Delicate Support

Crafted from integrally formed aluminum alloy, the armrest is wrapped in smooth and delicate PP material, providing gentle and refined support.
